Auditor's Report

March 9, 1949

Board of Selectmen

Hermon, Maine

Gentlemen:

We have examined the general fund balance sheet of the Town as of February 23, 1949 and have reviewed the accounting procedures of the Town as pertaining to departmental and trust fund operations and, without making a detailed audit of the transactions, have examined or tested the accounting records of the Town and other supporting evidence by methods and to the extent we deemed appropriate. Our examination was made in accordance with generally accepted auditing standards and included all procedures which we considered necessary in the circumstances.

In our opinion, the accompanying general fund balance sheet presents fairly the position of the Town of Hermon, Maine at February 23, 1949, in conformity with principles of municipal accounting.

Very truly yours,

PAUL A. SMITH & CO.

Public Accountants

By: W. C. Wheeler

Report of Superintendent of Schools

To the School Committee and Citizens of Hermon:

I submit herewith my fifth annual report of your schools for the municipal year 1948-1949. This report includes a detailed account of the cost of the schools, a complete analysis of school enrollment during the fall term of 1948, and a brief discussion of the problems with which we are immediately concerned.

ENROLLMENT

The total enrollment for the present school year in the elementary grades is 265, an increase of 12 over last year. Due to the crowded conditions existing in the rural schools last year it was thought best by the school committee to add an extra teacher to the staff. The only room available was at the Junction school, which is a two-room building but until this year only one room has been used. By using this extra room and an extra teacher we have been able to reduce the number of pupils in all of the overcrowded schools and also to reduce the number of grades in four of the buildings. This has made for much better conditions for all of the children in the elementary grades.

The following table shows the number of pupils in each grade in each school and also the number of children being conveyed to school by the town. These are the figures which appeared on the teachers' registers at the close of the fall term.

ENROLLMENT—FALL 1948

School	Conveyed	Grades							Total
		S.P.	1	2	3	4	5	6	
Hermon Corner	19	9	1	9	3	6	5	6	39
Coldbrook	6	1	5	4	3	3	7	2	25
Webber	21	6	6	0	7	4	3	5	31
Junction	42	8	18	2	13	8	10	5	64
Snow's Corner	33	5	9	7	13	6	0	0	40
Leather's Corner	21	4	4	3	7	7	3	5	33
Burnett	8	3	7	5	6	7	3	2	33
	—	—	—	—	—	—	—	—	—
Total	150	36	50	30	52	41	31	25	265

TEACHERS

We have several new teachers on our staff this year. Mr. Reginald McLaughlin of Medway, a graduate of the University of Maine, replaced Mrs. Ella Cobb as teacher of mathematics and sciences. In addition to his regular teaching duties, Mr. McLaughlin has coached both the boys' and girls' basketball teams. Mrs. Irma Patten of Hermon, a graduate of Boston University and Boston Teachers' College, took the position held last year by Mrs. Bemis, teacher of English and social studies. Other teachers in the high school are the same as last year.

In the elementary grades we hired Miss Phyllis Seamans of Levant as the extra teacher. She has had two years of training at Farmington State Teachers' College. She was assigned to the Webber School and Mrs. Laverna Patten was transferred to the Junction, where she teaches the lower grades. Mrs. Helen Bragg teaches the upper grades in the same building. Other rural teachers remained in the same schools as last year.

Miss Kathleen Hewes, music teacher in the rural schools last year, was unable to continue the work and we were unable to find anyone for that position until the middle of November. At that time we were fortunate in securing the services of Mr. Ermond Lewis of Searsport, who is carrying on the work in a capable manner.

Mrs. Dorothy Bowley teaches drawing one day a week in the rural schools and in the Junior High.

REPAIRS

Repairs seem to be one of our greatest expense items. In spite of the generous appropriation, we found it necessary to overdraw the account again this year. In the rural schools we repainted the inside of the Coldbrook and Webber schools and one of the rooms at the Junction. The other rural schools should be painted on the inside during the coming summer. A new stove was bought for the extra room at the Junction. Thirty-five new desks and chairs were purchased for the seventh grade room. The Agriculture shop was completed, painted, and wired. A new plastic rock floor was laid in the gymnasium. Other minor repairs to desks, doors, windows, etc., were made in all buildings.

We did not have sufficient money to complete the changes in the high school toilets as recommended by the State Department so this will be our first item for the coming year. New window shades are needed for practically all rooms in the high school. Extra desks and chairs are needed. The high school building should be painted on the outside. In order to take care of these repairs and absorb the overdraft we will need close to \$5.000 for the coming year.

NEW SCHOOL BUILDING

Mr. William Bailey, deputy commissioner of education, of Augusta inspected our schools, met with the school committee, and discussed the school situation at an open meeting of the Parent-Teacher Association. He recommends that we convert the present high school building into a grade school and either construct a new high school for ourselves or join with some other towns in building a community high school. If I am not greatly mistaken the people of Hermon want to have their own high school.

An act has been presented to the Legislature creating the Town of Hermon School District which will allow the town to issue bonds up to a total of \$100,000 for school construction. This act, however, will not be binding on the citizens of Hermon unless they vote to accept it at a special town meeting to be held this summer.

If this act is accepted by the town and if some state and federal aid should become available a new high school could be constructed in the town of Hermon. I believe that state and federal assistance will be a reality in a short time. There are bills before the State Legislature and Congress which would make such aid possible. I would suggest that all of you who are interested in a new school contact your state and national representatives and senators and ask them to support this legislation.

HIGH SCHOOL

For a detailed account of the high school and its activities I would refer you to the report of Principal Dwyer. I do, however, want to commend both faculty and students for the fine cooperation which is manifest in all phases of the school work. It is only when such a spirit of unity exists

that a school can serve its real purpose—the development of good citizens.

CONVEYANCE

During the summer the oldest bus was traded for a 55-passenger Reo which is giving very satisfactory service. As soon as the financial condition of the town will permit we should trade the older Chevrolet for another larger bus. Repairs on this bus have been heavy during the past year and it would seem to be good economy to trade it as soon as possible. We do need also a larger bus on this route.

AGRICULTURE

You will note from Principal Dwyer's report that there are twenty-three boys taking the course in Agriculture, which is more than a quarter of the boys in school. Since four courses of study are offered it is evident that this course is attracting its proportional part of the boys. With the completed shop and its fine equipment, I believe that an excellent course is being provided in this field. I wish that we might be able to offer a comparable course in Home Economics for the girls. However, this will probably follow when we get the new school.

APPROPRIATIONS

After due consideration of the needs the school committee recommends the following appropriations:

High School and Elementary Schools	\$20,000
Agriculture	2,500

Repairs

Elementary Schools	500
High School	4,000

The increase in the appropriation for school operation is due largely to the overdraft of approximately \$725. This overdraft was caused by the necessity of purchasing a new school bus for which there was not sufficient appropriation at the last town meeting. If we are to buy another new bus this year it will mean an additional appropriation beyond those listed above.

PARENT-TEACHER ASSOCIATION

I am much pleased that an active Parent-Teacher Association has been organized in Hermon. Its influence is already being felt. I am certain that through the work of this group the need for a new school building has become better understood by the citizens in general. Their cooperation is deeply appreciated.

SCHOOL SAVINGS

Through the cooperation of the Penobscot Savings Bank a program of school savings is being carried on in Hermon schools this year. I am pleased that the children are so interested in this project for unless habits of thrift are developed during school years they will probably not be formed at all. Thrift is a good habit and one which we would all do well to encourage in the children.

CONCLUSION

The work of the schools cannot be truly successful without the sincere cooperation of all concerned. This means

school committee, parents, teachers, children, and interested citizens. To all those who have offered encouragement by suggestions, constructive criticism, words of approval, and cheerful smiles of greeting I am grateful. It is my earnest desire to work for the welfare of all the children of all the people, for the hope of the world of the future lies in the children of the present.

Respectfully submitted,

EARL C. MCGRAW,
Superintendent of Schools.

Principal's Report

The enrollment by classes at the high school at the end of February is as follows:

	Boys	Girls	Total
Grade 12	11	5	16
Grade 11	12	12	24
Grade 10	19	13	32
Grade 9	10	19	29
Grade 8	17	16	33
Grade 7	15	19	34
	<hr/>	<hr/>	<hr/>
Totals	84	84	168

The enrollment by courses is: College, 19; General, 19; Commercial, 40; Agricultural, 23. We should constantly evaluate our school program to make sure that we are meeting the present and future needs of our boys and girls. We try to have each student take the course which best fits his needs and abilities.

It is obvious to all that Hermon schools are overcrowded. This trend will increase. The point cannot be argued because the children we are going to have in our schools have already been born. Superintendent McGraw has presented this situation to you many times. We have inadequacies in our school plant because of this growth. We need more good desks. There is a need for one more classroom. In addition, the building does not have adequate shades to protect the eyes of the children or to present an attractive appearance. Serious consideration should be given to placing better lighting fixtures in the

high school building. Actual eyestrain is noticeable each day under the present lights. You realize as you attend town meeting or other gatherings in the gymnasium that we do not have adequate seating. Any chairs bought for auditorium use should be solidly made because of the number of times it is necessary to move and store such chairs.

Graduates of Hermon High School will be pleased to notice additions which have been made to the school through money raised by the students. We have in the gymnasium a new electric scoreboard which adds to the interest and pleasure of the spectators. A sum of money has been set aside to build bleachers, although we were not able to get the lumber this year. The school has purchased a new trophy case. We are proud to report that Hermon High School during the past year won Central Maine League championships in public speaking, one-act plays, and spelling.

New equipment which is now at use in our shop to give our boys more practical and valuable training includes the following: 200 amp. arc-welding outfit, ten-inch floor model circular saw, six-inch floor model jointer, drill press, bench grinder, twelve-inch band saw, table model sander, forge, wet grindstone, complete hand wood-working tools, and blacksmithing tools.

Our College Course meets the requirements for admission to all Maine colleges. Many of our Commercial Course graduates go directly to positions in which they use their training. In our General Course we try to teach the fundamentals of computations and communications and create an awareness of the privileges and responsi-

bilities of citizens in a democracy, with much emphasis given to the significant events occurring in the world to-day.

Parents and teachers have the same mutual interest—the welfare of our boys and girls. We at the school appreciate genuine interest shown by parents and welcome constructive criticism which will help us in the job that the home and school must work at—producing better citizens.

Respectfully submitted,

LAWRENCE W. DWYER,

Principal.

Report of Public Health Nurse

January 1 to December 31, 1948

Public Health can be defined as the summation of the health of each individual in a community. The community which has a good public health program has a great economic asset because the citizens are well and are more able to take responsibility in the affairs of the community.

In our civilization, with increasingly rapid travel, the individual's health is not only his own problem but the concern of the community. He is not considered as being independent of his fellow citizens when this independency pertains to health any more than when it pertains to traffic laws.

Realizing that the prenatal, postnatal, infant, and pre-school periods in life are the most beneficial to the child, more emphasis has been placed on these periods by your Public Health Nurse.

Parents of infants and preschool children were given the opportunity of medical supervision at three Child Health Conferences sponsored by the Hermon Corner Parent-Teacher Association and the State Bureau of Health. There were 31 children who received physical examinations, 13 were immunized against diphtheria, 9 were vaccinated against smallpox, and 9 received whooping cough vaccine.

Your nurse has continued the advisory service in the School Health program. Home visits have been made to the parents of school children referred by the school per-

sonnel because of certain problems. In October the audiometer test was given to 291 pupils in the grade schools and High School.

As in the past, home visits have been made in the interest of venereal disease and tuberculosis control in order to keep these patients and contacts under treatment and to prevent spread of the disease.

The services of the Crippled Children's and Cardiac Clinics sponsored by the State Bureau of Health have been made available to those children referred by their family physician.

It is regrettable that no progress has been made in organizing a local Health Council. Little can be accomplished toward a complete Public Health program without community understanding and support.

My thanks to all those who have assisted in the Health Service during the past year.

Respectfully submitted,

GEORGINA J. PATTERSON,

Bureau of Health

Public Health Nurse
